9th Annual ABSL Conference

Neuromarketing is a commercial marketing communication field that applies neuropsychology to marketing research, studying consumers' sensorimotor, cognitive, and affective response to marketing stimuli. Neuromarketing seeks to understand the rationale behind how consumers make purchasing decisions and their responses to marketing stimuli in order to apply those learning in the marketing realm.

The vivid prose and easy navigation of the first edition led to strong demand for a second. Although this edition has been faulted for its imperfect scholarship, Smellie argued that the Britannica should be given the benefit of the doubt: . With regard to errors in general, whether falling under the denomination of mental, typographical or accidental, we are conscious of being able to point ...
